

# BANDITA

A TYPEFACE FOR COMICS

DESIGN LETTERS AND MAKING COMICS ARE THINGS THAT ALWAYS REVEAL SOMETHING ABOUT THE PERSON WE ARE.

# AS IF IT WERE HANDWRITTEN

OH WOW!

**Bandita** is a handwritten font with a care-free personality that emulates the writing in diaries and personal notes using a medium nib. Although designed for social media comics, its playful and dynamic spirit allows **Bandita** to thrive in other editorial or branding environments.

Its three stylistic variables and 540 glyphs lend a natural and spontaneous feel to the letterforms. Meanwhile, its dingbats and ligatures replicate scribbles and cross-outs.

**Bandita** was inspired by the uppercase letters of comic book letterers from the 1960s, where the use of the Ames guide created consistent and distinctive lettering. And incorporates some of the boldness of independent comic lettering, evident in its gestural and expressive strokes.

**Bandita** is a font designed by Ollinca Torres, an illustrator and lesbian woman from Mexico City.

FROM THE THINGS WE HEAR AND FROM THE PEOPLE WE SURROUND OURSELVES.
